A hand in a grey sweater sleeve holds a glowing blue wireframe hand that appears to be emerging from a laptop screen. The background is a dark, blurred indoor setting.

About Us

369 Global Club is an online social helping and self-helping project of 369 Global Trust, registered under the Indian Trust Act with Registered No: 70/IV/22. This Club allows individual social financial development based on mutual assistance self-help groups, Donation support system. Unlike commercial, investment, interest, or profit-making programs, 369 Global Club is a social helping program for ordinary people who struggle for daily basic needs such as good food & shelter, clothes, and proper health care. We are working to create a community to support the United Nation's sustainable development goals, no poverty, zero hunger, good health, and well-being.

Vision

Society's development depends on an individual's development. Our vision is to create a community of helping hands through mutual assistance among them by providing their basic needs. We look forward to a better world with no struggles for a more suitable living environment.

Mission

Today, most people spend a good portion of their income to pay off debts. Since life does not go on without taking loans, this situation can be changed if there is a sufficient financial source in case of emergencies. The platform envisioned here is a community of people who do not have to depend on loans for the future.

369 MEMBERS BENEFITS!
